10	MISC-CHROM-SEL	N0790005/Avio 220 Max Cycl/EA	1	EA	52,470.35	52,470.35
Customer Ref # :		N0790005	Availability :			
Product Ships Directly from Manufacturer						
Additional Information :		<p>Avio 220 Max Cycl./Concentric System Avio 220 Max ICP Optical Emission Spectrometer Concentric nebulizer system Capable of handling even the most difficult, high-matrix samples without dilution, the Avio 220 Max hybrid simultaneous ICP brings a whole new level of performance and flexibility to ICP. What's more, that unprecedented performance comes with unparalleled ease-of-use. Unique hardware features and the industry's most intuitive software combine to make multi-element measurements as easy as single-element analysis. PerkinElmer's Avio 220 Max ICP-OES is a compact, bench-top ICP-OES that combines a vertical plasma design with a host of unique hardware features to handle even the most difficult, high-matrix samples without dilution, delivering a whole new level of performance and flexibility to ICP. These include: RF generator with Flat Plate plasma technology generates a robust, matrix-tolerant plasma using half the argon of other systems Patented Dual View capability measures every wavelength with no loss of light or sensitivity Full-wavelength-range CCD array detector measures the wavelength range around the emission line of interest—simultaneously—for superior precision One of the smallest ICP on the market, Avio 220 Max offers the most efficient operation, reliable data, and lowest cost of ownership by delivering: The lowest total argon consumption of any ICP (only 9L/min versus 21 L/min required by other systems) The fastest ICP startup (spectrometer ready in just 10 minutes from power on) Superior sensitivity and resolution for all elements of interest The widest linear range with attenuation mode Power Requirements: One 200-230 VAC, 20A line, 2800 VA, single phase, 50/60 Hz, (+-1%) Power Cords included: IEC60309 250 V 16/20 A 2 pole plus protective earthplug</p>

70	MISC-CHROM-SEL	N8150390/AUTOSAMPLER-AUTOMA/EA	1	EA	9,113.81	9,113.81
Customer Ref # :		N8150390	Availability :			
Product Ships Directly from Manufacturer						
Additional Information :		<p>AUTOSAMPLER-AUTOMATION-READY 2DXCi 2DXCi two rack high-speed autosampler with autocorrecting capabilities. The DXCi autosampler automatically monitors and corrects the probe position for each sample. Autosampler includes two independent rinse pumps for dual-flowing rinse station and one FAST vacuum pump for easy upgradability to ESI FAST and prepFAST systems. Includes two fluoropolymer sample probes with carbon fiber support, racks and vials kit, and rinse bottles.</p> <p>Features and Benefits: -High throughput intelligent position autocorrection -Automatically goes to the correct sample position, even if accidentally obstructed e.g. when an analyst blocks the autosampler movement while adding samples into an active analytical run -Reports obstructions to instrument software -Higher speed operation – Enhanced productivity -AutoAlign Arm – Inert fluoropolymer probe holder (metal free) -Septum piercing option available -Parabolic probe – Anti-kinking probe -High accuracy – Optimal for microplates and small samples</p> <p>Power Requirements: 24 V DC, 8.3 AMPS</p> <p>Power Cords included: North America/Japan, Europe, United Kingdom, and China Power cords.</p> <p>Dimensions: Width 92cm, Depth 46cm, Height 69 cm</p> <p>Product Weight: 26 KG</p> <p>Warranty: Includes Manufacturer 1 year warranty</p> <p>Installation: Other Requires but not included: Not Applicable</p>

Customer Ref # :		N0810887	Availability :			
Product Ships Directly from Manufacturer						
Additional Information :		<p>BASE MODULE- SAMPLESENSE FOR AVIO 5x0 SampleSense Base Module for PerkinElmer Avio 5x0 series. Includes 4-channel integrated micro peristaltic pump with SampleSense FAST drive assembly, Type 2. Includes communication cable, Avio 5x0 adapterplate, instrument trigger cable and PFA-ICN nebulizer.</p>

90	MISC-CHROM-SEL	N8150458/Samplesense-prepFA/EA	1	EA	19,717.94	19,717.94	
		Customer Ref # : N8150458					Availability :
		Product Ships Directly from Manufacturer					
		Additional Information :	<p>Samplesense-prepFAST SampleSense prepFAST X autodilution system. Requires DXCi autosampler and SampleSense Base Unit. Includes power and communication cables, S400V syringe pump module, lines, valves, reservoirs, loops, and peristaltic pump tubing. SampleSense prepFAST X eliminates manual dilutions, reduces reagent use, and improves laboratory productivity. prepFAST X combines the DXCi Autosampler, high-throughput automatic SampleSense FAST valve technology, and a syringe module to perform precise and accurate dilutions of standards and samples. Features and Benefits: -SampleSense prepFAST X Automates Daily Lab Functions -SampleSense Automatic Sample Loading -Eliminates method timing parameters -Automatically loads samples of varying viscosities -Automatically triggers sample preparation and analysis -Actively detects and reports sample loading issues -Autocorrecting Autosampler—monitors and corrects probe position -Autodilution: Samples are automatically inline syringe-diluted and prepared for analysis -User specified dilution factor, on sample-by-sample basis -Reduces contamination risk: airborne, pipettes, vials -Improves precision and accuracy -Reduces vial and reagent usage -Improves sample throughput and washout -Autocalibration: Automate inline preparation of ICP or ICPMS calibration standards -Save time and improve laboratory efficiency -Improve calibration linearity -Standards rack holds both calibration and QC standards -Override Dilution: Automatically dilute and reanalyze samples -Autodilute samples with concentrations above the calibration range -Automatically dilute high matrix samples that cause internal standard recoveries to fall outside the acceptable range -Optimize laboratory throughput by generating reportable results from the initial sample run Power Requirements: 24V DC, 8.3AMPS Power Cords included: North America/Japan, Europe, United Kingdom, and China Power cords. Dimensions: Width 69cm, Depth 46cmx 69cm Product Weight: 14 KG Warranty: Includes Manufacturer 1 year warranty Installation: Required but not included Requires but not included: Cannot work alone. Requires the purchase of SampleSense Base Unit for Avio (N01810887) or SampleSense Base Unit for NexION (N8150455).</p>

VWR International's Terms and Conditions of Sale apply. A copy is available on our website (https://us.vwr.com/store/content/externalContentPage.jsp?path=/en_US/about_vwr_terms_conditions_product_sales.jsp), or by request. Customer represents that it has read and agrees to VWR International's Terms and Conditions of Sale.

Identified stock status is based on product availability at time of the quote and may change at time of order. Delivery dates are based on standard lead times from suppliers.

Charges displayed on the quotation including freight, tax and other charges are estimates and may vary at time of order.

Any images used are not necessarily representative of any product offering from VWR International and do not constitute the basis for purchase decisions.

Customer is responsible for unloading and providing standard receiving facilities for large and/or heavy shipments. Special unloading or delivery can be arranged, provided VWR International is notified at the time of order placement. For such arrangements, please contact VWR International for a quotation. All quotes for installation assume that services related to the equipment are in place at the Customer site (including, but not limited to, gas, plumbing, electrical and ventilation) as per the equipment manufacturer's specifications prior to the installation of the equipment. Installation or other services are not included in this quotation, unless otherwise noted on the quotation.

Customer has a limited amount of time to document and report any shipping damage. Please inspect all shipments upon receipt and refer to Section 4 of VWR International's Terms and Conditions of Sale for additional information.

Items prefixed with "MISC" are subject to regulatory approval once VWR International receives acceptance from the customer. They are special order, and as such may not be returnable. Please allow 6-8 weeks delivery from the time of your first order or acceptance of this quotation.
