The description of services intended for purchase from a single source is posted in accordance with section 3.9, Procurement Ordinance 23-21 and will be posted for a minimum of 15 business days.

Commodity or Service Required:

Purchase of Purchase of Rosemount Analytical Instruments, OEM Parts, and Service.

Description:

Lee County Utilities Department is seeking to execute a single source for the purchase of Rosemount Analytical Instruments, OEM Parts, and Service by Emerson LLLP. These Rosemount Analytical Instruments, OEM Parts, and Service are used for analyzers used at the water and wastewater plants to measure chemical and physical properties of water in the treatment process. The information the instruments collect is required and used for FDEP compliance. These instruments are all integrated by Supervisory Control and Data Acquisition (SCADA) systems for real-time management and compliance, and LCU needs to maintain sufficient stock of analyzers to meet operational needs.

Intended Single Source:

Emerson LLLP

Justification for Single Source Acquisition:

Emerson LLLP is the direct supplier, sole designer, manufacturer, and servicing entity for Rosemount products in the State of Florida. Products will be deemed out of warranty if ancillary equipment associated with the installations of said products is done by anyone other than the Emerson LLLP, or if unauthorized replacement parts are used. Furthermore, Emerson LLLP is the only company that can provide service and technical support in a timely manner.

Recommended Procurement Approach:

For the reason(s) stated above, Lee County Procurement Management intends to utilize the Single Source Procurement method to purchase from Emerson LLLP for supplying the above.

Respond to:

If your firm feels they have the ability to supply the above, please contact Daniel Goggin, Lee County Procurement Management at dgoggin@leegov.com for review.
