NAME OF ORDINANCE: **Lee County Fuel Pump Security Ordinance**

The proposed ordinance will provide provisions relating to the (1) requirements for owners and operators of retail fuel pumps to install and maintain fuel pump security measures; and (2) procedures for the issuances of fines when the terms of the ordinance are violated.

B. Narrative Summary of Ordinance (Several Sentence Summary)

Credit cards skimmers are devices that thieves install on fuel pumps which accept payment via a credit or debit card, to illegally capture and steal the customer's credit or debit card information. The use of these skimmers at fuel stations in Lee County is a growing concern. On February 5, 2019, the Board gave direction for the County Attorney's Office to draft an Ordinance requiring security measures on fuel pumps to prevent credit card fraud.
